“Hello, my name is \_\_\_\_\_ and I live in \_\_\_\_\_. I am very concerned about the proposed Weymouth compressor station and detrimental effects that it would have on surrounding communities, including ---your community---.

I am calling to ask that you co-sponsor Senate Bill 469 - An Act relative to the positioning of compressor stations. This act was put forth by Senator O'Connor, with the support of 11 other representatives and senators, and would prevent the construction of compressor stations within a half mile of vulnerable facilities such as schools, churches, and daycare operations. The Joint Committee on Environment, Natural Resources and Agriculture will be reviewing this bill on Tuesday, May 16. If this bill passes, it could be the key to the safety and security of thousands of residents in the Commonwealth. I am asking that you co-sponsor this legislation for the people of Weymouth/Quincy/Braintree/Hingham/etc. and all those who are living with the threat of expanded fracked-gas infrastructure. Thank you.
